MEMORANDUM FOR: [REDACTED]
Assistant to the DD/P

SUBJECT : DPD Projects/Security

25X1A

1. On 7 March 1961, [REDACTED] conducted security briefings relative to Projects I, C, A and O for Dr. Jerome B. Wiesner, Chairman of the President's Science Advisory Committee.

2. One of the points given special emphasis during the briefing was the requirement that none of these Projects be discussed with anyone whose clearance status is uncertain. Dr. Wiesner acknowledged his understanding of this requirement and added that it might be helpful for "someone" to mention to the President that these restrictions exist. Dr. Wiesner did not comment further.

3. This information is brought to your attention for whatever action may be appropriate.
